FORM C – Mill Report

Maryland Recycling Act (MRA) Telephone Directory Tonnage Report

If requested by the Printer, all mills that supply telephone directory stock for telephone directories distributed in Maryland must complete this form if requested by the printer, and return it to the Printer. The information provided on Form C – Mill Report is used to determine a publisher's compliance with the Maryland Recycling Act (Annotated Code of Maryland § 9-1709 Telephone Directory Recycling by Directory Publishers).

Tonnages

General Information

List in the table on page 2 the tonnage of telephone directory stock supplied to the Client/Printer Company named above. Attach additional sheets if needed.

All tonnage data must be reported in one unit (i.e., all short or all metric). To convert metric tons to short tons, multiply the amount of metric tons by 1.102 (e.g., 2 metric tons x 1.102= 2.204 short tons). To convert short tons to metric tons, multiply the amount of short tons by 0.907 (2 short tons x 0.907=1.814 metric tons).
